Who We Are

ARRK's numerous locations sites are strategically located throughout Asia, the United States and Europe, providing close personal and technical support for our clients. Our various locations also give us the ability to produce a number of projects simultaneously – large or small. You can count on Arrk's finest quality and services available from one relatively simple prototype to multiple complicated groups of products.

As a member of ARRK group companies in South East Asian region, spreading through Thailand, Malaysia, Korea, Taiwan and Singapore, ARRK Malaysia, located in Kuala Lumpur, is pleased to provide comprehensive supports for clients throughout Malaysia, Singapore, Indonesia, Philippine, etc.
